Ordering Notes, If Applicable

Darkroom Safelights: DKS-F/G-1X1-LED

1x1 Darkroom Safelights With Colored LED Light Sources

SPECIFICATIONS

HOUSING: Lapped and spot welded 20-gauge CRS construction.

DOOR FRAME: 20Ga gauge 4B satin polished stainless steel door frame. Door frame neoprene gasketed to housing and secured with flush mounted captive stainless steel fasteners. Hinged to housing with stainless steel cables.

REFLECTOR: Die formed metal with high reflectance white polyester powder coat finish. Typical reflectivity 92%.

OPTICS: 0.125" frost acrylic lens standard when no options are selected. All prismatic lensing is inverted so smooth side faces out.

LED: Provided with Narrow Spectrum non-filtered dimmable LED light sources. Available in DEEP RED (660nm), TRUE AMBER (590nm), Or GREEN (540nm) light spectrums. Additionally, each color is also available with a separately switched and dimmable white light source as well (80+ CRI; 4000K CCT).

ELECTRICAL: Single 1/2 inch trade size conduit knockout located on rear of housing for wiring. Each color comes with its own dedicated 0-10v 1% dimming driver. INTDIM option provides a rotary dimmer mounted inside the light fixture for field adjusting the illumination intensity for applications that cannot run new dimming wires. Consult factory for other options or requirement not shown.

FINISH: White powder coat finish (1,000 hour salt spray test) for housing and 4B satin polish stainless steel finish for doorframe.

INSTALLATION: Suitable for both Flanged and Grid installation. Yoke hanger mounting is standard for a secure installation in plaster or drywall ceilings. T-Bar supports are provided for simple grid installation. Support to structure by others.

WARRANTY: Drivers and LEDs are covered by a 5 year warranty, the remaining fixture is covered by a 10 year warranty

LISTINGS: This product Series is both Build America Buy America (B.A.B.A.) & Buy American Act (B.A.A.) compliant.

INTDIM OPTION: Rotary dimmer knob installed inside luminaire for field adjustability where 0-10v dimming wires cannot be run in the room. Only accessible inside the luminaire so the door frame must be removed. Dimming knob will only control the colored LED. Dimmer provides dim range of ~3% to 100% intensity.
